GLENMORE HEALTHCARE

Our mission is to deliver reliable, high-quality surgical and medical consumables that support healthcare professionals and enhance patient safety. We are committed to innovation, strict quality standards, and ethical partnerships, ensuring accessible and dependable products for domestic and global markets while contributing to improved care outcomes and a healthier future.

About Us

Serving with trust and quality for more than 20 years, Glenmore Healthcare Private Limited is manufacturing medical-surgical disposals and hygiene products. With an ultra-modern manufacturing unit, we serve our products within India and in 20+ international markets as well. Our philosophy of continuous innovation enhances the value of all our products. There is an extraordinary effort to prevent external contamination in the entire facility and utmost care is taken during every process.

“Your Partner in Dependable Surgical & Medical Consumables.”

About Our Products

Quality That Protects, Reliability That Saves Lives

Our products are engineered with uncompromising attention to quality, safety, and performance. Each item undergoes stringent manufacturing and testing processes to ensure superior absorbency, cleanliness, durability, and patient comfort. Using premium materials and advanced technology, we maintain consistency in layers, edges, whiteness, and strength across all cotton, gauze, dressings, tapes, and gloves. Our solutions support infection prevention and reliable clinical outcomes. Trusted by healthcare professionals, we deliver dependable products that meet global standards and enhance confidence in every medical procedure.

Excellence in Every Layer, Care in Every Product

We supply a wide range of surgical and medical consumables, including absorbent cotton, zig-zag cotton, cotton balls, gauze products, Gamjee rolls, dressings, surgical tapes, POP bandages, elastic bandages, gloves, sterilization reels, nebulizers, and BP monitors. Our products ensure high quality, hygiene, and dependable performance for healthcare institutions domestic and worldwide.

ABSORBENT COTTON ROLL

Absorbent Cotton—also known as Surgical Cotton or Absorbent Cotton Wool—is widely used across medical, surgical, and cosmetic applications. Our fully automated, state-of-the-art bleaching line delivers a product distinguished by exceptional whiteness, uniform purity, and industry-leading absorbency performance. The result is a consistently reliable cotton grade engineered for professional healthcare needs.

- 100% natural cotton
- Whiteness >85%
- Low absorbency time
- Even edges, consistent layers
- No foreign particles or loose fibers

COTTON BALLS

Glenmore Cotton Balls are designed for both cosmetic and medical applications. For cosmetic use, they are available in soft pastel colours such as pink, yellow, and blue. For medical procedures, sterile white cotton balls are preferred for maintaining purity, hygiene, and clinical performance.

- Soft & gentle feel
- High absorbency
- Free from chemicals
- Cosmetic & medical use

Specification	Unit	Packaging
0.5 Grams/Ball	1Kg/Packet	8 Bag/Carton

COTTON PRODUCTS

ZIG ZAG COTTON

Zig Zag Cotton is widely used in orthopedic and cosmetic applications. In addition to standard pack sizes, we also offer long-roll formats suitable for manufacturers of value-added cotton products. It's refined quality, uniform layering, and consistent weight make it an excellent input material for dressing pads and Gamjee rolls.

- Even pleats
- 8–12 m length options
- Easy to use

Specification	Unit	Packaging
100 Grams Net	Pleates/Packet	200 Packet/Bale
200 Grams Net	Pleates/Packet	100 Packet/Bale
300 Grams Net	Pleates/Packet	80 Packet/Bale
400 Grams Net	Pleates/Packet	60 Packet/Bale
500 Grams Net	Pleates/Packet	50 Packet/Bale

GAUZE PRODUCTS

GAUZE THAN

Gauze Than (Roll) is the traditional bulk packaging format for medical gauze. It is widely used by hospitals, clinics, and institutional CSSD departments to produce gauze-based products such as gauze swabs, Gamjee rolls, and combine dressings. The consistent layering, high absorbency, and reliable fabric quality make it suitable for downstream sterilization and processing.

- Consistent layers
- Highly absorbent
- Even edges

Specification	Unit	Packaging
90 CM X 18 Meter, 420 Grams	Single Piece	60 Pieces/Bale

ABDOMINAL SPONGES MOPPING PADS

Glenmore Abdominal Sponges and Mopping Pads are designed for reliable performance in surgical and clinical use, offering high absorbency with strong retention, clean interlocked edges free from optical whiteners and foreign matter, and a soft, skin-friendly construction with a firmly secured sturdy loop for safe handling and ease of use.

- High absorbency with strong retention
- Even, interlocked edges; free from optical whiteners and foreign matter
- Soft, skin-friendly construction with a firmly attached sturdy loop

GAUZE PRODUCTS

GAMJEE ROLL

Glenmore Gamjee Roll is made from highly absorbent 100% cotton enclosed in a low-adherent gauze covering, providing soft, effective cushioning when applied over dressings. The cotton-gauze construction ensures reliable absorbency, gentle contact with the skin, and consistent performance during wound care. For authenticity and safety assurance, each pack is equipped with EO and steam sterilization indicators.

- 100% cotton with low-adherent gauze
- High absorbency for wound cushioning
- Packed with EO & steam indicators for safety

GAUZE PRODUCTS

GAUZE SWAB

Gauze swabs are an essential multipurpose item in any medical kit, suitable for wound dressing, padding, protection, managing blood spills, applying antiseptics, and a wide range of clinical uses. Designed for reliability and comfort, they support effective patient care across routine and emergency procedures.

- High absorbency & retention
- Soft, clean, skin-friendly cotton
- Free from whiteners; available in bulk packs

GAUZE PRODUCTS

COMBINE DRESSING

Combine Dressings are high-performance first-aid pads designed for effective wound care and protection. Each dressing features a highly absorbent cotton core enclosed within a soft, comfortable non-woven outer layer, ensuring gentle contact with the skin. Soft end seals prevent leakage, while the integrated X-ray detectable line enhances patient safety during clinical procedures.

- High-absorbency cotton core
- Soft, clean, skin-friendly cover
- X-ray detectable for added safety

TAPES & ORTHOPEDICS

MICROPOROUS SURGICAL TAPE

Microporous Surgical Paper Tape is a dependable solution for everyday clinical taping needs. It's hypoallergenic adhesive makes it exceptionally gentle on fragile and sensitive skin, while the highly porous, breathable structure allows moisture to escape without compromising adhesion. Thin, flexible, and soft, it enhances patient comfort and is easy to tear by hand, ensuring quick and efficient application in any medical setting.

- Gentle, breathable, skin-safe adhesion
- Latex-free & hypoallergenic
- Clean removal with minimal residue

Specification	Unit	Packaging
1/2, 1, 2, 3 Inch X 9.1 Meter	12 Inch/Box	48 Boxes/Carton
1/2, 1, 2, 3 Inch X 5 Meter	12 Inch/Box	48 Boxes/Carton

ADHESIVE PLASTER

Adhesive plaster cloth is a medical-grade tape commonly used to secure dressings, bandages, and various clinical devices to the skin. It is coated with zinc oxide, which supports adhesion and contributes to skin-friendly healing performance.

- High-tack, breathable adhesive
- Soft, flexible cloth for easy application
- Gentle, durable, and comfortable on skin

Specification	Unit	Packaging
1, 2, 3, 4 Inch X 8 Meter (5, 9, 10 meter upon on Demand)	12 Inch/Box	24 Boxes/Carton

TAPES & ORTHOPEDICS

PLASTER OF PARIS BANDAGE

Plaster of Paris Bandage is a gauze cloth impregnated with plaster of Paris powder, used to protect and immobilize fractured limbs. It sets quickly, forms a strong and sturdy cast to support bone healing, and offers a short immersion time while helping reduce pain and aid recovery.

- Fast-setting, strong cast support
- Quick hardening for effective immobilization
- Short immersion time for easy application

Specification	Unit	Packaging
15 CM X 2.7 Meter	Individual Roll	144 Roll/Carton
10 CM X 2.7 Meter	Individual Roll	144 Roll/Carton

ELASTIC ADHESIVE BANDAGE

Elastic Adhesive Bandage is a lightweight strapping bandage suitable for ankle, knee, hand, and wrist taping. It stretches readily, offers exceptional comfort with a high degree of adhesion, accommodates swelling and movement, and supports a faster healing process.

- Lightweight, high-adhesion support
- Stretches easily and stays comfortable
- Accommodates swelling and movement

Specification	Unit	Packaging
8 CM X 4/6 Meter	Individual Roll	60 Pieces/Carton
10 CM X 4/6 Meter	Individual Roll	60 Pieces/Carton
8 CM X 1 Meter	Individual Roll (20 Box / Packet)	18 Packet/Carton
10 CM X 1 Meter	Individual Roll (20 Box / Packet)	12 Packet/Carton

TAPES & ORTHOPEDICS

CANNULA FIXATOR

The Cannula Fixator, made from elastic adhesive bandage, is designed to securely stabilize an IV cannula during infusion or medication delivery. It helps reduce discomfort, ensures steady placement, and provides easy, reliable fixation for patient care.

- Soft, non-irritating, non-allergic adhesive
- Stretches comfortably with body movement
- Breathable design with added adhesion strip

Specification	Unit	Packaging
4.5 CM X 6 CM	100 Pieces/Box	20 Box/Carton
4.5 CM X 6 CM	200 Pieces/Box	12 JAR/Carton

SOFT ROLL / CAST PADDING

Soft Roll Cast Padding is an orthopedic padding used in various surgical and casting applications. Made from soft, skin-friendly fibers, it helps prevent maceration by absorbing exudates and sweat. When applied, it provides a comfortable cushioning layer between the skin and POP, supporting protection and faster recovery.

- Clean, consistent layers
- High-whiteness, soft fibers
- Low absorbency, no loose particles

Specification	Unit	Packaging
10 CM X 3 Meter	Individual Roll	150 Roll/Carton
15 CM X 3 Meter	Individual Roll	100 Roll/Carton

TAPES & ORTHOPEDICS

TRANSPARENT IV DRESSINGS

Transparent IV Dressings with adhesive cannula fixators are designed to securely hold an IV cannula in place while allowing clear visibility of the insertion site. The transparent film enables continuous monitoring, helping identify early signs of infection or complications with ease.

- Waterproof, gentle adhesive
- Flexible and skin-friendly
- Sterile, individually packed with date sticker

Specification	Unit	Packaging
7 CM X 8.5 CM	50 Pieces/Box	10 Pieces/Carton
6 CM X 7 CM	100 Pieces/Box	10 Pieces/Carton

MEDICATED DRESSING

Medicated or First Aid Dressings are designed to cover and protect minor cuts, scrapes, and wounds. Each dressing features an absorbent pad with an adhesive backing for secure placement. Essential in first aid kits and clinical settings, they provide reliable, immediate protection for everyday wound care.

- Easy application and removal
- Breathable, absorbent protection
- Shields against dirt, bacteria, and contamination

EXAMINATION GLOVES

LATEX EXAMINATION GLOVES

Our Latex Examination Gloves feature a micro-textured finish for enhanced grip and are made from natural rubber latex to provide superior barrier protection. Powdered with absorbable U.S.P. dusting powder, they offer a secure, comfortable fit designed for reliable performance in clinical use.

- Prevents cross-contamination
- Enhanced grip and sensitivity
- Durable, flexible, comfortable

Specification	Unit	Packaging
Latex Powdered XS, S, M, L	100 Pieces in a Box	20 Boxes/Carton
Latex Powdered XS, S, M, L	20 Pieces in a Box	50 Boxes/Carton

NITRILE GLOVES

Nitrile Examination Gloves provide dependable protection for healthcare professionals, shielding against bloodborne pathogens, infectious materials, and chemical exposure. Designed for safety and comfort, they offer a durable, latex-free alternative ideal for everyday clinical use.

- Latex-free, powder-free, tear-resistant
- Textured surface for better grip
- Protects against hazardous chemicals

Specification	Unit	Packaging
Nitrile Powder Free S, M, L	100 Pieces in a Box	20 Boxes/Carton
Nitrile Powder Free S, M, L	30 Pieces in a Box	50 Boxes/Carton

EXAMINATION GLOVES

STERILE SURGICAL GLOVES

Sterile Surgical Gloves represent the highest standard of protective handwear, designed for surgeons and operating room teams who require uncompromised safety and precision. Our premium Latex Powdered Sterile Surgical Gloves provide exceptional fit, reliable barrier protection, and comfort, ensuring confidence and performance in critical surgical environments.

- Durable, stretchable, and hard to pierce
- Low-powder design to minimize skin irritation
- Optimal thickness for maintained touch sensitivity

Specification	Unit	Packaging
6, 6.5, 7, 7.5, 8	25 Pair/Box	20 Box/Carton
Latex Powdered XS, S, M, L	20 Pieces in a Box	50 Boxes/Carton

STERILIZATION ROLLS

Sterilization Reels are designed to ensure complete protection of medical devices throughout the sterilization cycle, shielding them from bacterial and chemical contamination from the moment they are sterilized until they are opened for use. They provide a secure, hygienic, and reliable packaging solution essential for maintaining sterility in clinical environments.

- Medical-grade paper with CPP laminate
- Printed with non-toxic, safe inks
- Secure triple-seal barrier for sterility

Specification	Unit	Packaging
50 MM X 200 Meter	Individual Roll	8 Pcs/Carton
75 MM X 200 Meter	Individual Roll	8 Pcs/Carton
100 MM X 200 Meter	Individual Roll	6 Pcs/Carton
150 MM X 200 Meter	Individual Roll	4 Pcs/Carton
200 MM X 200 Meter	Individual Roll	2 Pcs/Carton
250 MM X 200 Meter	Individual Roll	2 Pcs/Carton
300 MM X 200 Meter	Individual Roll	2 Pcs/Carton
350 MM X 200 Meter	Individual Roll	1 Pcs/Carton
400 MM X 200 Meter	Individual Roll	1 Pcs/Carton
